CheckMate 500

- Fully modular checkout that suits any store format, available in various lengths
- Flexible weighing solutions
- Third consumers function makes it possible to assist a third customer while the two previous consumers are packing the goods that they have purchased. The speed of service increases by almost 30%.
- Designed for easy integration of different payment options and systems
- Straight design of the infeed means that the work of the cashier can be performed in a smaller area, making stretching less necessary. This increases work efficiency.

Technical specification
