

Vision Hybrid

- ✓ Versatile & Adaptable - From traditional checkout counters to self-checkout solutions, the Vision product family offers numerous options that can be flexibly combined and individually adapted to any spatial requirement
- ✓ Ergonomic & Comfortable - Designed according to the latest ergonomic standards, this workstation supports both seated and standing use, with optional heating and ventilation for maximum employee satisfaction
- ✓ Sustainable & Durable - Built with high-quality, long-lasting, and recycled materials, our eco-friendly checkout solutions set new benchmarks in sustainability with a resource-efficient design
- ✓ Optimised Space Utilisation - Various shelving options maximize space for high-margin impulse items, ensuring efficient use of the checkout area
- ✓ Vision Hybrid - Seamless switching between staffed checkout and customer-friendly self-checkout zone ensures maximum flexibility and smooth daily operations

Technical specification

Dimensions HxLxW mm	W = 1403 – L = 4099 – H = 990
Weight kg	approx.. up to 670-700 kg
Certifications	CE
Voltage	220-240VAC 50-60Hz
Operating temperature	+10 °C to +30 °C
Customer display	Yes
Options	Yes
Packing area alternatives	0,7 m ² and 1,4 m ²
Payment options	Card Payment
Ergonomic norms	EN 301 549 and LV 20
Customisable	Yes
Installation	Indoor
Scanners	3550, 9300, 9800 and 9900 and the most other comparable standard scanners used in Germany (and elsewhere)
Security solution	Equipment for Accident prevention when moving the conveyor belt
Operating conditions	Ambient humidity: 30-80% Storage humidity: 30-80%
